## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites the limitation "the stopper". There is insufficient antecedent basis for this limitation in the claim.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 4 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Nethercutt et al. (4,035,911).

Nethercutt et al. discloses (Fig. 1-6) the invention including:

- Claim 1; an insertion plate 32 having an insertion hole 48, a support plate 30, a guide slot (see Fig. 5), an elongated guide hole 46, a cutting plate 38, a cutting hole 50, a stop protrusion 40, a mounting hole (see the hole where member 42 is

located), a receiving housing 12, a receiving hole (see Fig. 4), a receiving container 16, an operating lever 14.

- Claim 4; an insertion groove 48, the lancet A comes into close contact with the bottom (see Fig. 4), a stop surface (see the bottom corners of the member 48).
- Claim 8; the insertion hole decreases in diameter and the cutting holes increases in diameter (see Fig. 4-5).

#### *Allowable Subject Matter*

5. Claims 2-3, 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claim 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### *Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Taylor et al., Germain, Andrews, Pugliese et al., Moriconi, Hanifl, Ball, Greenhouse, choksi et al., Oakes, Dunnican, et al., Lefevre, McCammon, Johnson aka Mindes and Butler are cited to show related device.
